

NATURE'S CLASSROOM: Teachable moments of the reptilian kind

Presented by Steve O'Neil

To save paper I have made a transcript of this presentation available online on my website at:

<http://www.geocities.com/thesolorover/NaturesClassroom>

For more information on the nature education projects at Earthshine Mountain Lodge, including *Rowdy with Reptiles* and *Turtle Tracks*, take a look at:

<http://www.geocities.com/thesolorover/earthshinenaturepages>

I also host a channel on Youtube.com where I post my turtle tracking documentary videos and other educational videos that may be of interest to outdoor educators. Check it out at:

<http://www.youtube.com/user/snakesteve68>

For more information on coverboard studies take a look at:

<http://www.ccari.org/crcbp/cbhome.htm>

If you are interested in starting your own program with box turtles please first read this very useful online book at:

www.uncg.edu/~absomers/BoxTurtleBook.pdf

Also take a look at North Carolina Partners in Amphibian and Reptile Conservation at <http://www.ncparc.org/>

If you are interested in assisting with reptile field research and setting up coverboard surveys as well as Box Turtle population monitoring, the NC Wildlife Resources Commission needs volunteers.

For more information please contact NCWRC Field Biologist:

Gabrielle J Graeter
Mountain Wildlife Diversity Biologist
NC Wildlife Resources Commission
172 Davenport Rd
Asheville, NC 28806
work/cell: (828) 273-9097
g.graeter@earthlink.net
SEPARC Co-Chair
www.separc.org

Please contact me if you have any questions or if you would like to visit my study site.

I also operate an Eastern Box Turtle rescue and rehabilitation facility and I am a wildlife rehabilitator so if you find an injured critter please contact me anytime at:
